

Defining Proficiency

Agreeing on what "learned it" means.

Why this meeting matters

If teachers do not agree on proficiency, common assessment results will not be meaningful. This meeting prevents teams from giving the same assessment but scoring it through different lenses.

Meeting 7 · Wednesday, November 4, 2026 · 45 minutes

Focus	How good is good enough?
Leave with	Success criteria for the selected learning targets.

Agenda — step by step

Time	What the team does
0–5 min	Review your targets. Re-anchor on the learning targets you drafted.
5–15 min	Define "proficient". Discuss what proficient student work actually includes.
15–30 min	Write success criteria. Create clear criteria for each target.
30–40 min	Calibrate on samples. Look at sample work — do you agree it shows proficiency?
40–45 min	Finalize. Lock in the success criteria or note what still needs revision.
