

Defining Proficiency

Agreeing on what "learned it" means.

Why this meeting matters

If teachers do not agree on proficiency, common assessment results will not be meaningful. This meeting prevents teams from giving the same assessment but scoring it through different lenses.

Meeting 7 · Wednesday, November 4, 2026 · 45 minutes	
Focus	How good is good enough?
Leave with	Success criteria for the selected learning targets.

Agenda — step by step

Time	What the team does
0–5 min	Review norms and roles. Confirm who holds each role today and re-read your team norms together. Re-anchor on the learning targets you drafted.
5–15 min	Define "proficient". Discuss what proficient student work actually includes.
15–30 min	Write success criteria. Create clear criteria for each target.
30–40 min	Pressure-test the criteria. Sketch what a proficient response would look like, then check it against your success criteria — do they capture it? Adjust. The full anchor comparison comes at Meeting 8.
40–45 min	Finalize. Lock in the success criteria or note what still needs revision.
