

Buffer and Calibration

Reinforcement before assessment design.

Why this meeting matters

This is the second intentional buffer. Teams may want to rush to creating a quiz. This meeting slows them down so the assessment is aligned to the learning, not just the unit.

Meeting 8 · Wednesday, November 18, 2026 · 45 minutes

Focus	Are we truly clear on what students must learn and what proficiency looks like?
Leave with	Finalized learning targets and success criteria.

Agenda — step by step

Time	What the team does
0–10 min	Review norms and roles. Confirm who holds each role today and re-read your team norms together. Review the essential standard, targets, and success criteria.
10–25 min	Calibrate. Score a sample question, task, or response together — do you agree?
25–35 min	Surface disagreements. Name any gaps or differences in how you'd score.
35–43 min	Revise. Adjust targets or proficiency criteria as needed.
43–45 min	Confirm readiness. Agree you're ready to design the common assessment.
